## PRODUCT NUTRITIONAL INFORMATION GENU® pectin 150 USA-SAG type BA-KING

Proximates pr. 100 gram	US 21 CFR 101.9, revised May 27, 2016	<b>EU</b> Regulation 1169/2011 as amended
Energy		
Energy (kJ)	989	989
Total Calories (kcal)	236	236
Protein		
Protein, grams	1	1
Carbohydrate and Fibers		
Total Carbohydrate, grams *	86	30
Dietary Fiber, grams	56	56
Total Sugars, grams	30	30
Added Sugars	30	N/A
Fat		
Total Fat, grams	0	0
Saturated Fat, grams	0	0
Trans Fat, grams	0	N/A
Cholesterol, mg	0	N/A
Vitamins		
Vitamin D, μg	<100	<100
Minerals		
Calcium (Ca), mg	105	105
Phosphorus (P), mg	4	4
Iron (Fe), mg	2	2
Potassium (K), mg	60	60
Sodium (Na), mg	910	N/A
Salt (Sodium (Na) x 2,5), mg	N/A	2275

The above values should be considered "typical" and not a specification. The gap up to 100 (when adding protein, carbohydrates, and fat) consists of moisture and ash. Cells shown with "N/A" indicate that a label value is not permitted according to the specific legislation. To convert kcal to kJ, multiply by 4.19.

## US

The US values are in accordance with 21 CFR 101.9, and to the Revision of the Nutrition and Supplement Facts Labels Final Rule issued on May 27, 2016. Pectin is a soluble, non-digestible carbohydrate which FDA has listed as a dietary fiber at 21 CFR 101.9(c)(6)(i). Caloric values are calculated, using the general factors of 4, 4 and 9 kcal per gram of protein, total carbohydrate (less the amount of non-digestible carbohydrates), and total fat respectively. A general factor of 2 kcal per gram for soluble non-digestible carbohydrates shall be used.

## Εl

The EU values are in conformance with EU Regulation 1169/2011. Caloric values are calculated, using the general factors of 4, 4 and 9 kcal per gram of protein, carbohydrate and fat respectively. In addition, a general factor of 2 kcal per gram for fiber shall be used.

The information contained herein is, to the best knowledge of CP Kelco (CPK), true and accurate, but all recommendations or suggestions are made without guarantee, since we can neither anticipate nor control the different conditions under which this information and our products are used. Therefore, CPK does not warrant the application of this information to particular situations. It is CPK's policy, however, to assist our customers and to help in the solution of particular problems that may arise in connection with applications of CPK products.

<sup>\*</sup> The key reason for the different amounts of Total Carbohydrate is due to that dietary fiber is included in the calculation of total carbohydrate according to the US regulation but is not included in the calculation in EU regulation.
