

## CASO® FOOD FLAKES

Solvay Chemicals International SA declares that CASO® FOOD FLAKES is a synthetic calcium chloride of mineral origin intended for food uses.

In the context of the European Directive 2001/18/EC as amended on the deliberate release into the environment of Genetically Modified Organisms (GMOs) and European Regulations N°1829/2003 & N°1830/2003 as amended relative to the placing on the market of genetically modified food & feed or food & feed products containing or consisting of GMOs, these GMOs & food products derived from GMOs are subject to traceability and labelling requirements. These labelling requirements do not apply to food & feed containing GMOs in a proportion no higher than 0.9% of the food/feed ingredients considered individually and if the presence is adventitious or technically unavoidable.

CASO® FOOD FLAKES does not contain any GMO or any material derived from genetically modified origin, is not manufactured from genetically modified raw materials and therefore is not subject to labelling requirements in this context.
